"I am more than pleased..."

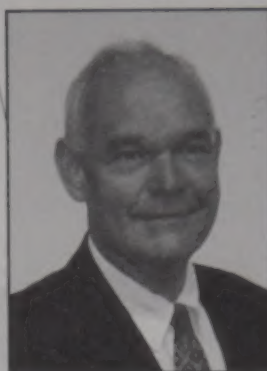

Dear Mr. Deeds and Ms. McDonald,

I am more than pleased with the outcome of the Bowers and Merena Las Vegas Auction of October 2004. Over a period of time I have been solicited for my numismatic collection and have felt too much commercial hype. During thirty five years of trading on Wall Street as a senior executive I have seen and experienced it all. Honesty, ethics and best efforts work for me. Ms Debbie McDonald, whom I have never met, fulfilled that critical virtue. I felt very comfortable with Bowers and Merena. Everything agreed upon went as promised. They are truly professional.

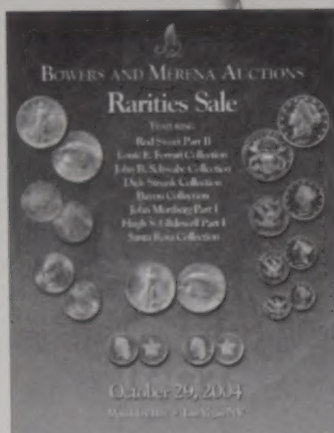

Best Wishes

Louis Ferrari

USING YOUR 2005 NUMISMATIC DEALER DIRECTORY

Your **2005 NDD** provides two ways to look-up coin dealers. The first section is a cross-referenced, alphabetical listing by last name or company name (CAPITALIZED listings). Personal names are followed by their state & company name. When the company name is the same as the numismatist's name, you will be able to locate them either way. For example, Julian M. Leidman will have two cross-references: 1) Under **J**, look for "JULIAN M. LEIDMAN" to find the company name, state, & telephone number; and 2) Under **L**, "Leidman, Julian M., MD, Julian M. Leidman" gives you his personal name, his state, his company name, and telephone number.

The second section is arranged by state, and therein alphabetically by *company* name (names such as *I-A Coin Co.* or *A&B Coin Co.* start each new state). If you know the state & *company* name, those listings contain the full mailing address and telephone numbers. When an individual's name is also the company name, **keep in mind that the listing will be alphabetical using the first name**. For example, the address of the *company* "Julian M. Leidman" can be found in Maryland under the first letter "**J**". Within the second section, we have highlighted our advertisers with blue ink. We encourage you to read all advertisements; they contain important information, and this directory would not be possible without their support. These leading dealers are sure that this directory will be one of your most useful numismatic tools. The advertising index will direct you to the various advertising categories. The cross-references in red ink will direct you to advertisements under related categories.

We hope that you find the **2005 Numismatic Dealer Directory** to be a useful tool throughout the year. And please don't forget to send in any updated information as soon as possible. If you do not refresh your information, you may be deleted from future issues. Also, please delete any persons no longer employed by your company.

PUBLISHER'S STATEMENT OF COPYRIGHT & LIMITATION OF LIABILITY

Reproduction of any part of the **2005 Numismatic Dealer Directory** without written permission of the **Coin Dealer Newsletter** is a violation of copyright law and is specifically prohibited. The **CDN** will strictly respond to any and all violations of the **CDN** copyright.

Every precaution has been taken to avoid errors and omissions in the **2005 Numismatic Dealer Directory**, both in the directory listings and in the display advertisements. The **Coin Dealer Newsletter** expressly rejects any liability for errors in the listings due to incomplete, inaccurate, or omitted information. If you do not refresh your information by responding to our mailings, you may be deleted from future issues. The **2005 NDD** listings have been updated to the best of our ability based upon your returned cards, plus the most recent public data available. If your name was removed from the **2005 NDD**, you will need to submit a listing request form (found in the directory) to be reinstated in the database. If any listing is incorrect, please notify us as soon as possible so that we can update our files. This will also help you — should we receive an inquiry, we can provide the corrected information. Please send us one of the listing request forms whenever your information changes — and remember that many new telephone Area Codes are being created.

Every precaution has also been taken to correctly include all display advertising. Should any error have occurred, an advertiser is limited in recovering for any loss or omission to a pro-rata abatement of the charge paid for such advertising in the proportion that the error reduces the value of the entire advertisement. In no event shall such recovery exceed the amount paid to the **Coin Dealer Newsletter**. An advertiser can substantially avoid the risk of errors or omissions by submitting camera-ready copy, which we encourage for all display advertising.

Note to consumers: The **2005 Numismatic Dealer Directory** has been prepared for the dealer community. As consumers, only you can decide what services or products best meet your needs. The inclusion of any dealer, either in the listings or advertisements, is *not* an endorsement of the individuals concerned, their companies, business practices, services, or products. Furthermore, you should be aware that advertisers are subject to various local, state, and federal laws and regulations; the enforcement of such laws and regulations is the responsibility of the appropriate agencies.

UNPRECEDENTED SEVEN-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for \$500, find out later that it was worth only \$50, and, thus, you would have to pay \$450 to learn just one lesson. But now, thanks to the revised fourth edition of *The Coin Collector's Survival Manual®*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- How lighting affects appearance—and the latest in halogen flashlights
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer

- How not to get ripped off if you buy coins through the mail or over the Internet — **courageous information**
- Profitable - and not-so-profitable - liquidation techniques
- How to buy and sell at conventions like the pros do
- How to spot a cleaned and artificially toned coin
- A comparison of PCGS versus NGC — **which service does the market really favor?**
- Stunning exposé and bombshell interview on coin "doctoring"
- Special full-color section on artificially toned and doctored coins

SPECIAL SECTIONS ON:

- Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed
- The real truth about slab services "fixed grading standard" claims and premium quality coins
- Revelations from a leading coin trader
- A grading service founder's startling admission of modified grading standards
- The newest tax laws

CONTAINS ALL-NEW INFORMATION ON:

- Gold coins as an economic safe haven
- Coin conservation services
- Coin insurance and safekeeping in light of September 11, 2001
- The latest Internet strategies

How Do You Get New York City Prices For Your Coins and Paper Money, and Pay No Commissions?

Just consign to any one of our regularly scheduled Smythe auctions in New York City, and you won't have to pay a single cent in seller's commissions on single items that realize over \$1,000!

Why do professional coin dealers, leading collectors, and institutions consign to Smythe? We get results that speak for themselves. Many items brought up to two or three times Greysheet in some of our "Nebraska" sales, and we will do everything we can to achieve the same results for you. At Smythe, we carefully catalogue every item, illustrate your coins and paper money in print and online, and show and **sell your lots in the largest in-house numismatic auction rooms in New York City.**

If you have single coins or paper money that are valued at over \$1,000, we will charge you absolutely nothing in commissions. Please ask us about our highly competitive rates on items of lower value.

What makes bidders participate so enthusiastically in our sales? We make them feel right at home, whether they bid online, over the telephone, through the mail, or in person.

Fast pay (28 working days). **Generous advances** (call for details). **Absolute reliability** (since 1880!) **Personal attention** (from in-house experts). **Impeccable references** (both individual and institutional).

To Consign

Call Jay Ehrlichman (U.S. coins), Stephen Goldsmith (U.S. coins or paper), Tommy Tesoriero (Ancient coins), Martin Gengerke or Scott Lindquist (U.S. paper) at 800-622-1880. Ask for our very competitive commission rates.

To Order Our Next Catalogue

Please call our subscription desk at 800-622-1880 (\$25 US, \$45 overseas).

Special Offer!

Mention *Numismatic Dealer Directory* and receive our next catalogue **FREE** (new customers only).

CGA

Currency Grading and Authentication

CGA has been formed in response to demand from collectors and dealers for an impartial third party grading service, dedicated to serving the needs of the paper money collectibles industry.

Our goal is to tailor our services to the demands of the market. To educate the public about this exciting collecting field, and enable dealers to reach out to collectors who otherwise would have trepidation in purchasing uncertified bank notes.

CGA... the Original and First Currency Grading Service

When Jay Parrino purchased the Binion hoard of 100 \$10,000 bills (one million face value) he had them graded at CGA. When the world's most valuable note (\$1,000 Watermelon F-379b) came to market, CGA was entrusted with authentication and grading. When a local coin shop purchased several \$1 silver Certificates (F-237) recently, CGA was awarded the opportunity to grade them.

Whether your notes are worth millions or just pocket change, CGA has the experience, the expertise and the consistency to help market your inventory or collection. CGA brings liquidity to the market place with superb third-party grading.

In a few short years, CGA has graded and been entrusted with over \$250 million dollars worth of collectable US Currency.

3 Steps to Success

1.

NCS evaluators determine if the coin needs or will benefit from conservation. NCS accepts all uncertified or certified coins, tokens and medals.

2.

If NCS feels the coin is a good candidate, it is conserved in our state-of-the-art laboratory using the most advanced equipment and techniques available. NCS not only addresses the immediate problem, but also promotes the coin's longer-term stability.

3.

After conservation, if the submitter elects, the coin will be submitted for certification.

Coins are graded by NGC.

ICG is Proud to Present The "King of VAMs"

The VAM 44 Discovery Coin!

In 1963, a young Berkeley engineering student encountered a revolutionary booklet, entitled *Morgan Dollar Varieties* by F.X. Klaes. In this small volume, a previously unknown 7/8TF "Doubled Leaves" variety was among the coins featured. And the rest is history!

The student was none other than Leroy Van Allen.
And the coin? It was the first VAM 44, the "King of VAMs."

And naturally, IT'S IN AN ICG HOLDER!

Contact James Taylor for an ICG dealer submission kit.

How does your collection STACK UP?

About NGC's Certified Registry

NGC's Certified Coin Registry is a community for collectors where their sets can be displayed and ranked according to grade, rarity, and other factors. The goal of the Certified Coin Registry is to encourage coin collecting as a hobby, acknowledge the collectors who assemble truly remarkable sets, and inspire beginner hobbyists as they embark on the fun and rewarding hobby of building a coin collection.

*Just one of the ways
our rare commitment is
redefining the hobby*

There are many advantages to using NGC's Certified Coin Registry:

- NGC's Certified Coin Registry is the most inclusive system of its kind. It ranks coins from both major certification services, NGC and PCGS, so all of the coins in your set can be included.
- Your set is ranked according to its true rarity, thanks to our highly accurate weighted ranking system.
- You can receive a scoring bonus for coins with the NGC exclusive Star Designation (★). This coveted designation is unique to NGC and identifies coins that have superior eye appeal.
- NGC, the industry's leading coin certification company, has been the Official Grading Service of the American Numismatic Association (ANA) and the Professional Numismatists Guild (PNG). With the Certified Coin Registry, brought to you by NGC, you can trust that you are getting the most accurate ranking for your set.
- Currently accepting coins for ranking in more than 500 categories.

MS 70

"You'll love this stuff!"

Industrial Strength Coin Brightener

Proven for years as the **INDUSTRY STANDARD** used by professional numismatist and collectors alike world wide to restore **mint state** and **proof** coins to the bright - white brilliance that they exhibited the day they were minted! Developed by renowned chemist Gayl Swinehart, PhD

Contains No Acids or Solvents Environmentally Friendly

**Safe on Gold - Silver - Nickel
Copper - Bronze - Brass**

WILL NOT GIVE YOUR COINS THAT "DIPPED" LOOK

MS70 does not change the color of your coin but does remove the tarnish and surface contamination allowing the natural beauty of the original surface to show as bright as the day your coin left the mint. Surface contamination is p.v.c., tarnish, fog, oil, dirt, ect. **MS70** is a blend of industrial detergents and surfactants designed to remove surface contamination from metal without disturbing the metal surface itself.

When **MS70** is applied the surfactants (wetting agents) first break the surface tension of the contamination then the detergents is **MS70** go to work as you "work" the coin as directed on the label instructions by suspending the contamination so that it may be rinsed away leaving a bright metal surface as undisturbed as the day the coin was made

MS70 IS AVAILABLE IN MOST COIN SHOPS OR YOU MAY ORDER BY CALLING WITH VISA OR MASTERCARD OR SEND \$7.95 PLUS \$3 POSTAGE TO:

Why B.F. Sold to Spectrum:

Excellent Service, Attention to Detail, Fair & Immediate Payment

It pays to contact Spectrum when it's time to sell your coins or currency. Spectrum pays today's highest prices, delivers a fast, fair payment, and provides complete documentation. When appropriate, Spectrum even recommends sales alternatives — if it means higher prices **FOR YOU**. Isn't that exactly what you're looking for when it's time to sell?

Dear Dale:

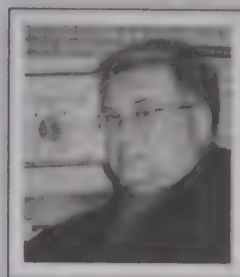

I would like to thank you and Spectrum for your excellent service and attention to detail in my recent numismatic sale to your firm. As you promised, my collection received immediate attention from Spectrum. You paid for my shipping, gave me an itemized value for each coin and made a prompt and fair offer.

In addition, you offered to sell any portion of my collection through your sister company Teletrade. I received an immediate payment from Spectrum and elected to sell some items on Teletrade. Not being familiar with Teletrade, I was pleasantly surprised with the values my coins brought and their efficient service.

Dale, thanks to you I am now a happy customer of both Spectrum and Teletrade. I appreciated the service I received in the selling of my coins and your professionalism Dale.

Cordially,

B.F.
Arizona

The Coin Dealer Newsletter

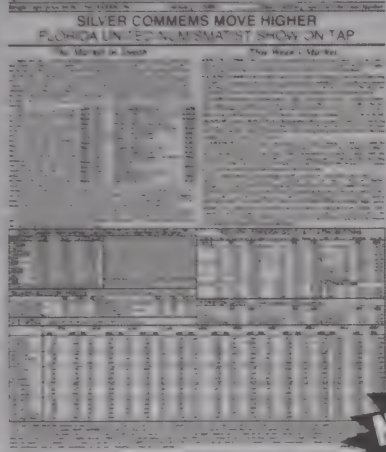

has been serving dealers for (please check):

☐ 43 ☐ 30 ☐ 14

If you checked all three choices, you are correct. The *Greysheet*, as most numismatists know, was started in 1963, and has been the market's leading (and only!) source of current, wholesale pricing information since then. Over the decades, the listings have been tremendously expanded and improved to provide subscribers with the most *accurate* market information that money can buy.

But the *Greysheet* is more than just the *weekly* CDN. The **CDN Monthly Supplement** has been an important part of our subscription package since 1976, with its monthly listings of so many important series by date. And starting in 1992, the **CDN Quarterly** now brings CDN subscribers full date, multiple-grade listings on every regular issue U.S. coin not already covered in the weekly and monthly issues. Imagine, every U.S. coin now receives our *independent, unbiased* attention, all so that you can make informed buying and selling decisions.

The 2005 Numismatic Dealer Directory**

When it's time to sell...

JMRC will pay you more money for your coins.

John Maben
President & Chief Numismatist
John Maben Rare Coins, Inc.

Grading expertise equals a higher price when selling. The most confident and qualified graders can afford to pay you the highest prices for your coins.

Larger advertising budgets do not translate into higher prices for your coins, and may in fact be a drawback as somebody needs to pay those bills, and that somebody could be you! Some can legitimately claim more experience than their competition, but bear in mind, the length of experience means nothing compared to the depth, quality, and relevance of the experience itself.

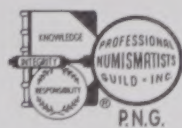

So while there are many coin companies you could go to, many with fine numismatists, there are few who can offer you the consistent high level of grading expertise of a former NGC Grading Finalizer, like John Maben.

Where does this grading expertise come from? From grading and finalizing millions of coins of all types, conditions, and rarities. And not just a "look and go" grade, but at a level of focus and expertise that helped maintain an industry standard for virtually all marketable US coins, for nearly a decade.

When selling, your goal should be to maximize the value of your coins. JMRC stands in a category of its own, uniquely and better qualified to accomplish this goal for our clients through a variety of means.

Find out how JMRC can help you realize higher prices for your coins. Whether you are a dealer, collector, investor, or estate officer, you deserve the very best advice available. Not second, third, or fourth best, but only the very best.

Call, email, fax, or write us today. Visit us on the web or in person by appointment at our Sarasota/Bradenton area Florida offices, or at any major convention.
